🔗 ghribiachref

Summary

Recent graduate in **Computer Engineering**, specialized in **full-stack** development with **Java (Spring Boot / Angular)**, and proficient in **DevOps** and **CI/CD** environments. Skilled in designing and deploying high-performance web applications with integrated **monitoring** and **automation tools**. Ambitious and motivated, eager to actively contribute to innovative software engineering projects

Professional Experience

01/2025 – 08/2025 Ben Arouss, Tunisie	IT Manufacturing Intern Engineer <i>Sagemcom Tunisie</i> <ul style="list-style-type: none">Designed and implemented a real-time production monitoring portal for industrial operations.Developed backend with Spring Boot and frontend with Angular.Integrated performance metrics and built interactive dashboards.Implemented a CI/CD pipeline and monitoring using Micrometer and DevOps tools.Collaborated in an Agile Scrum methodology with the project team
06/2024 – 09/2024 Tunis, Tunisie	Full-Stack Developer Intern <i>Visual Focus</i> <ul style="list-style-type: none">Developed an e-commerce platform using Spring Boot (backend) and Angular (frontend).Implemented features for user, product, order, and complaint management.Integrated secure authentication using JWT.
06/2023 – 08/2023 Tunis, Tunisie	Full-Stack Developer Intern <i>EKLECTIC</i> <ul style="list-style-type: none">Designed and developed a financial services platform.Used PHP, HTML, CSS, and JavaScript to manage participants in various games

Education

09/2022 – 09/2025 Tunis , Tunisie	Engineering Degree in Computer Science <i>ESPRIT – École Supérieure Privée d'Ingénierie et de Technologies</i> Relevant Courses: Software Engineering, Web Development (Spring Boot, Angular, .NET, PHP), Databases, DevOps (CI/CD, Docker), Artificial Intelligence, Data Analysis with Power BI.
09/2020 – 06/2022 Tunis, Tunisie	Preparatory Studies in Technical Physics <i>Institut Préparatoire aux Études d'Ingénieur d'El Manar (IPEIEM)</i> <ul style="list-style-type: none">Intensive Training in Technical PhysicsSuccessfully passed the national entrance exam for engineering schools, granting access to the engineering program.

Projects

09/2024 – 10/2024	DevOps Project <ul style="list-style-type: none">Set up a DevOps environment on Ubuntu.Performed unit testing on Spring Boot and Angular applications.
-------------------	---

- Integrated tools such as **Jenkins**, **Nexus**, **SonarQube**, and **Docker** for **CI/CD** and **code quality** assurance
- 01/2024 – 05/2024
- CocoEsprit**
- Developed an application for ESPRIT students, providing housing and carpooling services.
 - Backend developed with **Spring Boot** and frontend with **Angular**.
